Student of the Month

May

West Coast Side

Justin Wilson

Justin Wilson was picked as the West Coast May Student of the Month! Justin Wilson is very involved at Reagan. His teachers said that he is always willing to help when needed and has a great attitude. He is currently participating in the sports: golf, hockey, and tennis. He also participates in Patriot Post, Yearbook, and Creative Writing Club. Justin says he feels honored to be chosen as Student of the Month. When Justin grows up, he wants to be a graphic designer. Justin's favorite teachers are Mrs. Breedlove and Mrs. Whitcomb. His favorite part of RMS is, "the teachers and staff because they're so congenial*."

Student of the Month

May

East Coast Side

Evan Grady

Congratulations to Even Grady for becoming May Student of the Month! Evan was asked how he felt about being student of the month and he responded, "It's a real honor, I'm glad that I am one of the 18 kids that were lucky enough to get this award." Evan says his role model is definitely his dad, "He has so much integrity and he's full of advice. I'm very glad he's my dad and he's great."

Evan thinks Mrs. Renkes is the teacher that inspires him the most to work his hardest. He said, "She will always push your limits and test your abilities as a student, and she really gets the best out of me and I like her for that." Evan is involved in Track, Cross Country, Band, Office Monitoring, Scholastic Bowl, and many other activities.

Evan was asked what the best thing about eighth grade was and he said, "Options and opportunities. You have so many options in the eighth grade. You could do band, choir, track, patriot post, scholastic bowl, and then change your mind if you want to. All the opportunities and options gave me a sense of freedom knowing I could try whatever I wanted.

A.R. Champion!

Trent Scott has brought a new meaning to achievement in Accelerated Reader. He has broken A.R. records in 6th, 7th, and 8th grades by earning more than 1000 points each year. His name has been added to the 1000 point club plaque in the library for the past two years, and this year is no exception. This year Trent earned 1061.8 A.R. points! That's a lot of reading! The great thing is that from this point forward younger students can tie Trent's record of earning 1000 points for three straight years at Reagan, but no one can beat it. Trent will always reign as the first Reagan student to earn 1000 points for three years in a row. If anyone wants to attempt to tie his record, you will get your chance because Trent is heading off to the high school next year. Who will take his place as the Reagan Middle School A.R. champion?

Memorial Day Parade

The soldiers who made the ultimate sacrifice was honored in Dixon by not only the adult denizens of Dixon yesterday. At ten o'clock in the morning on Memorial Day, our own Reagan Middle School Patriot Band marched in Dixon's Memorial Day Parade. After weeks of practice, the band was quite agreeable to the ear and well prepared. They played Pride & Glory March composed by Ken Harris. This was a great song to be played in honor of the fallen soldiers of our nation. Even if you don't play in the band you can still pay your respects by either going to the parade, or participating in the nation-wide moment of silence, or even visiting the graves of family members that had once served in the war. Memorial Day is a great holiday that should always be kept in American culture. We should thank the Patriot Band for helping Dixon honor our soldiers on Memorial Day.

6th Grade Green Project

By Zoey Colglazier

You may have heard the Green Project being orchestrated by the 6th grade. The Project is a chance to beautify the area outside the east wing. The Project originally started with the Challenge Classes, but has spread throughout the grade. Science and social studies classes researched soil and plant facts for our area. Math classes performed measurements needed and language arts' classes did writing assignments about the Project.

To raise funds and awareness, the 6th grade sold candy during lunch hours, and called the fundraiser "Pops for Plants". They 6th grade also applied for a grant, but it didn't work out. The total amount estimated to finish the Project is about \$800. With the money earned so far, they have purchased winter gem boxwoods, soil amendments and mulch. Many teachers also brought in bushes and shrubbery. The planting is hoped to be finished by the end of this week.

An exciting experience happened when Mrs. Leith (formally Ms. Sackett) who used to teach P.E. and now teaches horticulture read about the Project online. She said that she would come Friday June 3rd to give the 6th grade information about horticulture.

Project Harambee

"Let's pull together!"

By Zoey Colglazier

Friday, May 6th, found many students at the Project Harambee Dance, which raised \$520.00 total. Half of the proceeds went to Heifer International, a non-profit organization that sends animals such as cows and goats over to impoverished areas. It follows the "give a man a fish he eats for a day, teach him to fish he eats for a lifetime" idea. The other half went to the local Red Cross, helping people in poverty in America.

The dance was pulled off with help from the Student Council, and all of Mrs. Kitzman's social studies classes. Harambee in Swahili literally means "Let's pull together", and that is what the school did.

A big part of the dance was educating the building. Not only in why they should come, but when the dance was and what would be taking place. Many students went around the school from class to class talking about Project Harambee. Another part of the dance was creating the decorations and setting up the music. Mrs. Hamer allowed students to use her room to create flowers, masks and murals. These were seen at the dance.

A special thanks goes to Mr. Juenger, Mrs. Empen, Sandy Schuler, Mrs. Hamer, Mrs. Hertenstein, Mrs. Kitzman, the Student Council, and everyone who helped the dance be the success it was. Thanks!

Government Day

On Monday, May 16th, the eighth grade Government Day took place. Two schools took part in this event; Reagan Middle School, and St, Mary's. Twenty-five students from RMS participated in this yearly event.

To find out more information on this subject, we asked Mr. Bishop for the details.

Q: What is Government Day?

A: Government Day is one day out of the year we take and have students go with officials from the city of Dixon. On that day, they follow them around for approximately two hours. Then at the end of the day, we go to a city counsel meeting in order to give students a chance to participate in the city council meeting, and see kind of what that is like.

Q: Where does Government Day take place?

A: Government Day takes place where we mainly start off at the Public Safety Building here in Dixon and then students kind of spread out all over the city of Dixon, depending on what their position is, some will stay downtown Dixon in City Hall, others will be in the Public Safety Building and still, others will go to different parts of Dixon and check out projects that the city is working on.

Q: When is Government Day?

A: Government Day was the 16th of May. It's always on a Monday because that's when they do City Counsel Meetings. So, we always have them on a Monday during the month and usually there is two city counsel meetings per month.

Q: Why is there a Government Day?

A: The reason there is a Government Day is because one of the goals for social studies class in the eighth grade is to get students involved with local government and hopefully give them an idea of what it means to be involved in the community and maybe spark some interest in that area.

Well, there you go! All in all, Government Day is a fun, educational excuse to miss half of our school day to chill with some totally hipster people.

For those of you in 7th grade, get ready to rumble— Government Day is not an event you'll want to miss out on.

Justice Is Served

By Amy Rotella

The September 11 attacks were a series of coordinated Kamikaze martyr attacks by the al-Qaeda upon the United States on September 11, 2001. On the morning of this tragedy, 19 al-Qaeda terrorists commandeered four commercial passenger jet airplanes. The hijackers purposely crashed two of the planes into the Twin Towers of the World Trade Center in New York City, killing everyone inside the airplanes and numerous people in the buildings. Within the first few hours, both the towers collapsed. Destroying other buildings near by and damaging others, many people were killed there. The third airplane the hijackers stole was crashed into a field near Shanksville in the rural area of Pennsylvania. Some of the passengers and flight crew on board tried to rebel against the terrorists, which was directed towards Washington D.C., to hit the Capitol Building. Close to 3,000 victims of this attack died, they won't ever be forgotten.

But to those whose loved ones or family members have died, justice has been finally served with a side of security. The leader of the al-Qaeda, Osama Bin Laden, has been hiding for a decade, but we finally found him. United States President, Barrack Obama, authorized an attempt on Osama Bin Laden's suspected location by Abbottabad, Pakistan. In the very early morning of May 2nd that operation was successfully carried out by our Navy Seals, with help from the CIA, shortly after the raid, Osama Bin Laden was shot in the chest and in his head, with a deadly shot. They genetically tested him to make sure it was him, and within the next twenty-four hours, his body was taken out to sea for burial. Justice was finally served... with a side of safety to those who suffered.

Our Trip to Hannibal

By: Maggie Bushman, Becca Drezen, and Samantha Odenthal

On Saturday, May 28th, a group of eighth graders from RMS took a four hour bus ride to the home town of the famous author, Mark Twain. While in Hannibal, Missouri we visited the homes of Samuel Clemens, Huckleberry Finn, and Becky Thatcher. Huck and Becky are characters from Mark Twain's (Sam Clemens) books. After this we all ate lunch on the Mississippi River on a River Boat. This was really cool because we got to see Hannibal from a different point of view. We also visited the Mark Twain Cave, the same cave that is in *The Adventures of Tom Sawyer*. We walked through a few of the many, many tunnels of the cave. We witnessed several bats and experienced what it would have been like when Tom and Becky were lost inside with no light, what so ever. Towards the end of the day, we had a haunted trolley ride through the spooky neighborhoods of Hannibal. There is said to be many ghosts haunting several buildings, many of which grew up in the town. Our trolley tour led us to a supposedly haunted cemetery. There we explored alone or with partners, using dousing rods to lead us in the direction of the magnetic pull of the spirits. Some of us even captured white orbs of self-illuminating light, which were suspected to be spirits. After that thrill, we headed through the streets to a local restaurant to chow down. When we were done with dinner we walked the streets and explored the shops and other businesses. Free to wander, we took in our scenic surroundings. All in all, it was a tiring trip filled with lots of walking and learning, but it was truly a worthwhile experience. Don't miss out on this trip next year, 7th graders!
